PRODUCE COMFORT

KITCHEN FURNITURE CATALOG

Five reasons why you should choose our developed and produced kitchens:

- We have more than 20 years of manufacturing experience. And this experience is invaluable. It was gained learning from the unpredictable mistakes and have done the necessary conclusions afterwards. Today we know how to predict these errors and avoid them. Therefore we will suggest, advise and produce you your dream kitchen.
- We know how to maximize the use of kitchen space. We will design functional furniture taking into account not only of the size the kitchen, but also your wishes and desires.
- Furniture production will offer you a wide variety of furniture materials and fittings choices. We know how to save wisely while manufacturing furniture-wisely when to choose the high quality materials, but not necessarily the most expensive ones. We will advise you where the investment is really worth. We will help you to choose quality, durable kitchen fittings and accessories.
- We will give you full customer service. This means that we will not only design, manufacture, deliver and assemble furniture. We will ensure maintenance and adjustments if you decide to make any changes or improvements after you have started to use the kitchen.
- We will provide you with a 15 year guarantee for furniture mechanisms. If necessary, we can change old and worn-off mechanisms with recent ones to improve the functioning of your kitchen and you could keep enjoying it.
